Profile

Master of Computer Applications (MCA) student with hands-on experience in Full-Stack and Mobile Application Development. Skilled in React.js, Node.js, Flutter, Android (Kotlin), MySQL, and MongoDB, with a passion for building scalable and user-friendly applications.

Education

Uka Tarsadia University 2025 – Present

Master of Computer Applications (MCA)

Veer Narmad South Gujarat University 2022 – 2025

Bachelor of Computer Applications (BCA)

CGPA: 8.54

Gujarat Secondary & Higher Secondary Education Board Mar 2021

Higher Secondary Certificate (HSC)

Percentage: 66.92%

Gujarat Secondary & Higher Secondary Education Board Mar 2019

Secondary School Certificate (SSC)

Percentage: 68.33%

Uka Tarsadia University, Surat, India pursuing

Master of Computer Applications

SPA: 8.82 / 10

Skills

Programming Languages: Java, Python, JavaScript, C, C++

Frontend: React.js, HTML, CSS

Mobile: Flutter, React Native (Expo), Android (Kotlin)

Backend: Node.js, Express.js, REST APIs

Databases: MySQL, MongoDB, SQLite

Concepts: Data Structures, Algorithms, OOP

Languages: English, Gujarati, Hindi

Projects

[GitHub](#)

SmartTrip – AI Tourism Guide

Tech Stack: React.js, Node.js, Express.js, MongoDB, Google Gemini AI, Leaflet.js, OpenStreetMap

Developed an AI-powered tourism web application that generates personalized travel itineraries based on destination, budget, duration, and user preferences. Integrated Google Gemini AI for intelligent trip planning, hotel and attraction recommendations, budget estimation, day-wise itineraries, and an AI chat interface. Implemented interactive maps using Leaflet.js and OpenStreetMap with a responsive user interface.

StudyGenie AI – AI Study Assistant

Tech Stack: TypeScript, React.js, Node.js, Express.js, MongoDB, Firebase, OpenAI

Built an AI-powered mobile study assistant that helps students with AI chat, PDF summarization, note generation, quiz preparation, and personalized study plans. Implemented secure Firebase Authentication, cloud-based data storage, exam planning, progress tracking, and an intuitive user-friendly interface.

MP3 Cutter – Audio Editing App

Tech Stack: Flutter, Dart, Firebase Authentication, Hive Database

Developed a cross-platform audio editing application with MP3 trimming, audio merging, and file management features. Implemented Firebase Authentication for secure user login, Hive for local storage, and a responsive Flutter UI to deliver a smooth audio editing experience.

Spam Email Detection System

Tech Stack: Python, Flask, Scikit-learn, NLP, Machine Learning

Developed a machine learning-based spam email detection system using Natural Language Processing techniques. Performed text preprocessing, feature extraction using TF-IDF, and trained classification models to accurately identify spam and legitimate emails. Built a simple web interface for real-time email classification.

Eye Care System

Tech Stack: Android Studio, Java, SQLite

Developed an Android application to promote eye health through eye exercises, animation videos, and eye care tips. Included separate admin and user modules for managing exercises, animations, and user activities.

Recipe Finder Application

Tech Stack: Android Studio, Java, SQLite

Developed an Android application that enables users to search and view recipes by category. Implemented user authentication, recipe management, feedback system, and an admin dashboard for managing recipes and categories.

Portfolio Website

Tech Stack: React.js, HTML, CSS, JavaScript

Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, education, certifications, and achievements. Implemented modern UI components, smooth navigation, responsive layouts, and optimized performance for desktop and mobile devices.
